

Standards and Guidelines: Issue Briefs, Facts and Trends for Powering a Sustainable Future

www.wbcsd.org*

Summary

Electricity companies partnered with the WBCSD to produce an overall agenda and supporting facts for informing energy debates worldwide. "Issue Briefs" and "Facts and Trends" documents are available for specific sectors: coal; carbon capture & storage; hydro; hydrogen; nuclear; natural gas. Issue briefs are available for access to electricity in developing countries, end use energy efficiency and the role of utilities and transmission and distribution.

*Search for "Powering a sustainable future" under publications.

Owner: World Business Council for Sustainable Development
