

Standards and Guidelines: Port Authority of New York - Sustainable Infrastructure Guidelines

www.panynj.gov/about/building-transportation-greening.html

Summary

This is an example of sector-specific guidelines. This particular guideline is structured similar to a sustainability rating and certification scheme, where evidence is required for meeting specified requirements.

Owner: Port Authority of New York & New Jersey

Type					Themes			
Strategic	Management reporting	Design or data specific	Assess./indicator framework	Standards	General sustainability	Carbon / climate	Sector Specific	Other
Country	United States - New York			Development	Supports a sustainability policy originally adopted in 2006, aimed at reducing environmental impact. The infrastructure guidelines are a relatively recent addition, the Sustainable Building Guidelines were released in 2007.			
Sector	Ports							
Published	2011							
Access	Free to download
