Outline

- Introduction
- Activities
- Gama administration
- Action plan
- ADB procurement document
- Challenges

Introduction

- Vision of GAMA: To be the recognized voice for the Consulting Industry in Africa
- Mission: To promote the business interest of GAMA members by providing leadership in the provision of infrastructure in Africa and globally.

Activities

- GAMA has carried out self assessment and identified areas that need improvement
- GAMA has now adopted a new constitution and action plan. The constitution was adopted in Bagamoyo Tanzania in March 2006

GAMA Administration

- Based on the new constitution, a new administration was elected in Botswana in May 2007
- GAMA ExCo will meet three times a year to follow up issues that are discussed in various meetings

Action plan

- Capacity building initiatives:
Implementation of FIDIC modules – seeking funds. AfDB contacted and draft proposal has been completed.
- Implementation of Benchmark for MAs: MAs required to give feedback in General Assembly in Tunis 2008.
- Dbase of Cons. Engineers in Africa
- Increase membership of GAMA

Challenges

- GAMA is growing, stable leadership is required
- Moral and material support needed. Resources level are still low and therefore planning and implementation of dev. activities is difficult
- GAMA needs to establish own secretariat. Initial resources expected from review of annual subscriptions. Experience form other regions is welcome.

**THANK YOU
FOR YOUR
ATTENTION!**
