EDUCATION

B.Sc., International Project Management, Tianjin University, 1994
B.Sc., Hydropower & Electric Engineering, Wuhan University, 1991

SUMMARY OF EXPERIENCE

Mr. Liu, as one of the earlier professionals who engaged in project management under FIDIC Conditions of Contract in China, he has 30 years of experience in infrastructure sector. His experience covers very wide infrastructure areas including water resources, power generation, urban development etc. During his career, he is a professional and leader for consulting firms, also, he is a very active participant and leader at national and international engineering consulting organizations, such as: Co-founder of CYPF at CNAEC, Member of FIDIC YPFSC (2007-2009), Member of FIDIC IMC (2009-2017), Member of FIDIC ASPAC Executive Committee (2011-2018) , Chairman at FIDIC ASPAC (2015-2018), FIDIC Board Member (2017-present), FIDIC Vice president (2019-2021), FIDIC certified trainer, Friendly reviewer for FIDIC DB Rules(2016), Friendly reviewer for FIDIC 2017 Red book and Silver book. As a FIDIC Contract promoter, he actively

promoted the application of FIDIC Contract to the stakeholders via conference, forums and seminars especially in Asia Pacific region.

DETAILED EXPERIENCE**2002-present Shanghai Investment Consulting Group Co. Ltd.**

SICC is a large Chinese engineering consulting firm with business covering most fields of the national economy and social development. Working for the Group, I served at several positions, vice chief engineer of the Group, Chairman & General manager of subsidiary firms etc., and used to be responsible for JV companies with the partners from UK and China HongKong, successfully developed business on urban planning, urban design, landscape design and architectural design. At the same time I provided my contribution to FIDIC Asia-pacific and Global business via different roles such as FIDIC Vice president, Board member, member of working committees, Chairman of FIDIC Asia-pacific etc.

2001-2002 Taihu Basin Authority of Ministry of Water Resources

TBA is a basin administration agency authorized by MWR, exerts managerial responsibilities for water resources in an area consisting of Taihu Lake Basin, Qiantang River Basin and Zhejiang and Fujian provinces. Working for TBA, I served as deputy director for infrastructure construction department responsible for the administration on infrastructure planning, design and construction.

1991-2001 Xiaolangdi Engineering Consulting Corporation

Working for XECC, I served as various positions, site engineer, deputy Engineer's representative, vice chief supervisor etc., and used to working on many infrastructure projects, such as: Kazi Dam project in Lesotho, M'Jara Dam project in Morocco, Nierji Water Conservancy Project in Jilin province, China, XLD multipurpose Dam Project in Henan province, China. XLD is a WB financed project, and it is one of the earliest project adopt FIDIC Conditions of Contract in China, during that time, as a FIDIC 1987 Red Book practitioner, I start familiar with FIDIC Contract suite.
