## Call for papers for e-booklet

The Future Leaders committee of FIDIC (FLC) invites submissions of papers for a special edition of the annual *FIDIC Future Leaders Booklet*, which this year has as its central theme, “Infrastructure Development and Consulting Engineering in the New Normal”.

Covid-19 has rendered the world, daily life and business unrecognisable. We are in unprecedented times and whilst many have embraced working remotely, digitalisation, social distancing and an accelerated technology adoption, the impact of a post-Covid world on the built environment, consulting engineering and infrastructure is uncertain. But, history shows that where there is change and uncertainty, opportunity is always present. This is your opportunity to join FIDIC’s Future Leaders’ activities by contributing ideas, opinions, research and highlighting the challenges, potential solutions and opportunities for consulting engineering businesses and professionals by sharing your perspectives by submitting a paper for a special edition of the *Future Leaders Booklet*.
