Follow up with the Official accredited FIDIC Workshop

21/22 January 2014 - JUBA

This practical training course, provided by professional engineers with extensive international experience, explains and illustrates the use of the FIDIC Conditions of Contract for Construction and the FIDIC Conditions of Contract for Plant and Design-Build. The course provides the essential knowledge for professionals from Government Ministries, Departments and Agencies, Private Sector Employers, Consulting Engineers, Contractors, Sub-Contractors, Quantity Surveyors, Architects, Legal Advisers and all involved with the new generation of International Projects. It is particularly important where FIDIC management procedures shall be implemented.
