"The Practical Use of the 1999 FIDIC Conditions of Contract for Construction & Design-Build"

OVERVIEW

The 1999 FIDIC Conditions of Contract are being increasingly used by the international Construction Industry throughout the World. In Europe they are used by the European Commission for all their projects throughout Central and Eastern Europe. The Multi-Lateral Development Banks, including the World Bank, Islamic Bank for Development and the Asian Development Bank have adopted the 1999 FIDIC Conditions of Contract for Construction with modifications. These are covered in this course.

This practical training course, provided by professional engineers with extensive international experience, explains and illustrates the use of the FIDIC Conditions of Contract for Construction (the "Construction Contract") and the FIDIC Conditions of Contract for Plant and Design-Build (the "Design-Build Contract"). The course is designed to help the participants have confidence in working with these documents whether representing Employers, Consultants or Contractors

SEMINAR TUTORS:

The tutor is provided by European Construction Ventures, ECV, in association with FIDIC. ECV specialises in training and management consultancy to the international construction and infrastructure industries. The ECV tutors have provided over 150 training courses throughout the world in the last 3 years on the use of FIDIC documents

Tutor: David Heslett, BSc (Hons) C. Eng. FICE., Managing Director, ECV

COURSE MATERIALS

All delegates will be provided the following materials, in English:

- FIDIC Conditions of Contract for Construction 1999 Edition
- FIDIC Conditions of Contract for Plant & Design Build, 1999 Edition
- Schedule of overheads used during the seminar to be used as "Work Book"
- Work Exercises
- Notes on changes incorporated in the MDBs' Harmonised Construction Contract

WHO SHOULD ATTEND?

The training course provides the necessary knowledge for professionals from Government Ministries and Agencies, Private Sector Employers, Consulting Engineers, Contractors, Quantity Surveyors, Architects, Legal Advisers and all involved with the implementation and management of large Works Contracts. It is particularly important to those involved in preparing or managing infrastructure projects financed under MDBs' Funds, the EU Cohesion and Structural Funds, as all their Works contracts use the FIDIC Conditions of Contract.

Ensure that your staff is prepared for working with these important documents that are becoming the international contractual language of the 21st Century

"The Practical Management of Contract Claims and the Resolution of Disputes"

OVERVIEW

With all FIDIC contracts there will be claims. This training course is designed to provide practical assistance to those working with the New FIDIC Contract Conditions (1999 Editions) in the management of claims and achieving resolution to claims and in particular the workings of the Dispute Adjudication Board.

It is applicable to all the Parties involved within a New FIDIC Contract – the Employer, the Contractor, the Engineer, and the DAB Members. By having a professional understanding of the responsibilities and rights of the Parties under a New FIDIC contract and the procedures to manage claims, the resolution of claims will be achieved more successfully. The tutors of the course are very experienced British engineers, who have extensive involvement with FIDIC claims, disputes, adjudications, and arbitration procedures throughout the world.

The World Bank and the IFI's also require a Dispute Board on the same basis as the FIDIC Contract and detailed in Harmonised Construction Contract.

SEMINAR TUTOR:

The tutor is provided by European Construction Ventures, ECV, in collaboration with FIDIC. ECV specialises in training and management consultancy to the international construction and infrastructure industries. The ECV tutors have provided over 150 training courses worldwide in the last 3 years on the practical use of FIDIC documents.

Tutor: David Heslett, BSc (Hons) C. Eng. FICE., Managing Director, ECV

COURSE MATERIALS

All delegates will be provided the following materials, in English:

- FIDIC Conditions of Contract for Construction 1999 edition
- FIDIC Conditions of Contract for Plant & Design-Build
- Schedule of overheads used during the seminar to be used as "Work Book"
- Notes on changes incorporated within MDBs' Harmonised Construction Contract

WHO SHOULD ATTEND?

The seminar provides the necessary knowledge for professionals from Government Ministries and Agencies, Private Sector Employers, Consulting Engineers, Contractors, Quantity Surveyors, Legal Advisers and all involved with the next generation of International Projects. It is particularly important where FIDIC and MDB procedures shall be implemented and "adjudication" is required to resolve disputes.

COURSE RECOGNITION BY FIDIC

The course (Module 2) is regarded by FIDIC as providing part of the appropriate training for any person wishing to apply to the National Adjudicators' lists or FIDIC the FIDIC Presidents Adjudicator's list

Ensure that your staff is prepared for working with these important documents which are becoming the international contractual language of the 21st Century.

PROGRAMME MODULE 1

	Day 1: 8:30 – 5:00	Day 2: 9:00 – 5:00
7:30 – 8:30	Registration of Participants	9:00 <u>Session 5:</u>
8:30	Session 1:	Clauses 8,9,10,11 &12 (YB)
	Introduction & Principles	Commencement ProcedureProgramme
	 Background / History Examination of Contracts Basic Principles Risk Analyses Selection of Appropriate Contracts 	 Extension of time Suspension Taking over Certificate Defects period & Performance Certificate 10:30 Coffee Break
