“Subcontract for Construction ”

OVERVIEW

The training course provides a training on the FIDIC Subcontract, 2011 edition. The training is geared towards Main Contractors and Subcontractors, and also Consulting Engineers and lawyers being involved in major Subcontracts. The FIDIC Subcontract enables the Main Contractor to subcontract parts of the Works under the Main Contract on a back-to-back basis to a Subcontractor. The back-to-back approach ensures a smooth and consistent way of subcontracting, and reflects the commercial realities of subcontracting in modern times. Essentially, this means that the Subcontractor shall design (to the extent specified), execute and complete the Subcontract Works, and also undertake all assistance and support efforts which are needed in order to avoid the Main Contractor becoming liable under the Main Contract for any lack of performance which the Main Contractor has entrusted to the Subcontractor. The tutors of this course are an Irish engineer and a German lawyer who are both member of the FIDIC task group for a Design & Build Subcontract. Both tutors have in depth experience in dealing with Subcontracts and are experienced arbitrators and adjudicators.

SEMINAR TUTOR:

The course is provided by Nestor Bildungsinstitut GmbH in collaboration with FIDIC. Nestor specializes in training and management in particular in the consultancy to international construction and infrastructure industries. The Nestor tutors have provided over 100 training courses worldwide in the last 4 years on the use of FIDIC documents.

Tutors: Dr. Götz-Sebastian Hök (Lawyer, Arbitrator and FIDIC listed Adjudicator) and Siobhan Fahey (Chairwoman FIDIC Task Group 9 – Design & Build Subcontract).

COURSE MATERIALS

The course materials will include a set of slides and a script. Upon convenience the trainers will provide additional materials. All courses are up to date and will become updated regularly. Recent case law and experiences will be discussed. Materials in English:

- FIDIC Subcontract for Construction
- FIDIC Conditions of Contract for Construction
- Course notes, especially written for using “Construction Contracts”
- Set of powerpoint slides used during the seminar - to be used as a work book
- Work Exercises

WHO SHOULD ATTEND?

The seminar provides the essential knowledge for professionals from Government Ministries, Departments and Agencies, Private Sector Employers, Consulting Engineers, Contractors, Sub-Contractors, Quantity Surveyors, Architects, Legal Advisers and all involved with the new generation of International Projects. It is particularly important where FIDIC management procedures shall be implemented.
