Ensuring that Clients, Consultants, Contractors, Legal Advisers, etc:

- ❖ have Confidence in working with FIDIC Contract documents which are Increasingly becoming the international language in the construction industry
- ❖ Can procure and manage EPC Turnkey Projects

OVERVIEW

FIDIC Conditions of Contract are increasingly used by the international construction Industry throughout the world. The courses have been designed to offer a complete and effective understanding and application of the FIDIC Conditions of Contract, the management of contract claims and procurement and management of EPC Projects. While Module 1 course provides a practical guide to understanding and use of the 1999 FIDIC Conditions of Contract and Multi-lateral Development Banks Harmonized Conditions of Contract, Module 2 provides practical advice to those working with the FIDIC Conditions of Contract in the management of claims, understanding, defending and achieving the resolution of claims and the working of Disputes Adjudication Boards and Arbitration.

EPC/Turnkey Projects are recommended where an entity takes total responsibility for the design and execution of an engineering project i.e engineering, procurement and construction: providing a fully equipped facility ready for operation.

COURSE MATERIALS

All delegates will be provided the following materials
