

Starting February 2016

FIDIC is offering a programme of online training courses on FIDIC Contracts.

During 2016, 5 online courses will be organised:

- Basic Module 1: FIDIC Conditions of Contract for Construction (Red Book) and Conditions of Contract for Plant and Design Build (Yellow Book).
- Advanced Module 1: Advanced course in applying FIDIC Conditions of Contract for Construction (Red Book) and Conditions of Contract for Plant and Design Build (Yellow Book).
- Module 2: Claims and Dispute Resolution under FIDIC.
- Procurement Module: Implementation Strategy on Infrastructure Projects.
- Module 4: Management & Administration of FIDIC Contracts

FIDIC conditions of contract are increasingly being used in the international construction industry and for projects financed by international development banks. Being familiar with the Red and Yellow Book is a condition for successful international expansion whether as a consulting engineer, contractor or other professionals involved with implementation and management of works contracts.

The courses are based on lectures in combination with directly related case work through which participants will work on real life cases and practise application of the various contract conditions. The case work will take place on a chat type of platform where the course participants present and discuss a case input in writing. Presentations, assessments and discussions of the submitted replies will take place in an on-line classroom.

These online courses require that Participants have access to a computer with a good and reliable internet connection either at their workplace or at home, a headset with microphone, there is no need for a webcam.

The courses comprise between 7 and 9 sessions over a five months period, starting in February 2016. Each session lasts up to two hours. The preparation of case work must be made between the sessions and the outcome will be discussed during the next classroom session. The on-line sessions are held on planned dates and times according to time zones.

Hardcopies of the course books involved (the FIDIC Red and Yellow books and/or Procurement Guide) will be mailed to all participants who have settled the course fee. All lectures and classroom sessions are recorded and can be reviewed at any time, not to miss any session. These recordings require an internet connection and cannot be downloaded on the personal computers.

Participation requires a good command of written and spoken English.

Payment by credit card or bank transfer on FIDIC web site.

A discount of 15% is offered to firms that register more than 5 participants.

For all the online courses a good understanding and speaking level of English is required.

Certificate

A Certificate of Successful Completion requires having responded in writing on the platform to all questions and attending at least half the classroom sessions.

A Certificate of Participation requires having participated at least in 50 % of all activities.

FIDIC, the International Federation of Consulting Engineers, based in Geneva, Switzerland, promotes globally the business interests of suppliers of technology-based intellectual services for the built and natural environment on behalf of some 101 national Member Associations representing over one million professionals working in 66,000 firms worldwide.

Basic Module 1

The training programme covers:

- Introduction to FIDIC
- FIDIC Contract Documents
- Responsibilities of the Main Parties
- Management of Projects
- Tests on Completion
- Financial Procedures
- Suspension and Termination
- Risk, Liability and Force Majeure
- Claims, Dispute and Arbitration Cases

The course offers a basic training programme specially designed for Consulting Engineers, Contractors, Quantity Surveyors, Public Contract Administrators or other professionals involved in construction work and contracts administration.

Mentor:

Steen Frederiksen, FIDIC Accredited Trainer

Fee:

Euro 2500 - including on-line training and hard copies of relevant FIDIC documents.

Advanced Module 1

The training programme covers:

FIDIC Contract Documents, conflicts and disputes related to Responsibilities of the Parties, Management of Projects, Tests on Completion, Financial Procedures, Suspension and Termination and Risk, Liability and Force Majeure.

It is an advanced training programme specially designed for Consulting Engineers, Contractors, Quantity Surveyors, Public Contract Administrators or other professionals involved in construction work and contracts administration.

Admission criteria are: actual practical experience of more than 5 years in using the FIDIC contract documents or having successfully attended the Basic FIDIC Module 1 Course.

The session lessons and discussions will be based upon a construction case study and related infrastructure works. The participants will analyse the case study and applying the various contracts clauses, will manage the entire construction project.

Mentors:

Steen Frederiksen FIDIC Accredited Trainer and Coordinator;
Leo Grutters FIDIC President's List Adjudicator.

Fee:

Euro 2900 - including on-line training and hard copies of relevant FIDIC documents.

New Online Modules

Module 2

Claims and Dispute Resolution under FIDIC

Procurement Module

Implementation Strategy on Infrastructure Projects

Content and more details available on:

fidic.org/fidic-online-training-courses-2016

Module 4

The training programme covers:

- Contract Documents (What documents form the Contract, essential requirements)
- Start-up (Steps prior to signing the contract, activities related to launching the project)
- Financial Control (Payments, cash-flow and financial monitoring of the project)
- Ongoing supervision (Procedures related to time and quality management)
- Taking Over the Works (Preparing and managing this important project milestone)
- Defects Liability, Completion, (What is Completion and what liabilities are coming after?)
- Termination (the procedures and the Parties' rights)

This training course explains and illustrates the practical use of the FIDIC Conditions of Contract for Construction (the "Construction Contract") and the FIDIC Conditions of Contract for Plant and Design-Build (the "Design-Build Contract"). The course is designed to help the participants have confidence in working with these documents whether representing Employers, Consultants or Contractors. It provides extensive checking measures and work exercises to give all delegates a comprehensive understanding of proper management of these contracts.

Mentor:

Zoltan Zahonyi, FIDIC Accredited Trainer.

Fee:

Euro 2500 - including on-line training and hard copies of relevant FIDIC documents.
