“CONTRACT MANAGEMENT & ADMINISTRATION OF 1999 FIDIC CONTRACTS”

PROVIDING ESSENTIAL CONTRACTUAL KNOW-HOW FOR WORKING ON INTERNATIONAL PROJECTS

OVERVIEW

The 1999 FIDIC Conditions of Contract are being increasingly used by the international Construction Industry throughout the World. The Multi-Lateral Development Banks, including the World Bank, Islamic Bank for Development and the Asian Development Bank have adopted the 1999 FIDIC Conditions of Contract for Construction with modifications.

This practical training course, provided by a professional engineer with extensive international experience, explains and illustrates the use of the FIDIC Conditions of Contract for Construction (the “Construction Contract”) and the FIDIC Conditions of Contract for Plant and Design-Build (the “Design-Build Contract”). The course is designed to help the participants have confidence in working with these documents whether representing Employers, Consultants or Contractors. It provides extensive checking measures and work exercises to give all delegates a comprehensive understanding of the Contracts.

SEMINAR TUTOR

The tutor is Eng. Zoltán Záhonyi, highly qualified **FIDIC accredited trainer** and experienced in the use of FIDIC Contracts holding a degree of M.Sc. in Civil Engineering (Budapest, 1991) and a postgraduate degree in Law (Budapest, 2004). During his education years and in the very early period of his career he gained international experience in various civil engineering fields in a number of European countries (Austria, Germany, Iceland and Great Britain). His first involvements with consulting engineering and FIDIC contracts took place in the early 1990-s. Zoltán played important role in spreading the use and practice of using FIDIC Conditions of Contracts in Hungary – among others he is the translator of FIDIC 1999 Red Book, Green Book, and also 1995 Orange Book as well as White Book into Hungarian language. Apart from providing consultancy services for Engineers, Employers as well as Contractors for major infrastructure projects, he has been involved in a number of Task Groups and the Contracts Committee of the International FIDIC organisation since 2007 (CC member from 2009). He is an enlisted dispute adjudicator in Hungary and an accredited international FIDIC trainer. In addition to the 3-4 annual FIDIC courses in Hungary, he started to spread out his training capabilities on the international scene (Riga, Doha, Lagos, Kathmandu and Manila).

COURSE MATERIALS

All delegates will be provided the following materials, in English:

- FIDIC Conditions of Contract for Construction 1999 Edition
- FIDIC Conditions of Contract for Plant & Design – Build, 1999 Edition
- Schedule of overheads used during the seminar – to be used as “Work Book”
- Work Exercises

WHO SHOULD ATTEND?

The training course provides the necessary knowledge for professionals from Government Ministries and Agencies, Private Sector Employers, Consulting Engineers, Contractors, Quantity Surveyors, Architects, Legal Advisers and all involved with the implementation and management of FIDIC Works Contracts.
