*Training Programs on  
The FIDIC certified training courses  
, Doha, Qatar*  
*Organized by FIDIC, Jordan Engineers Association (JEA), A/E  
Business Council*

## Introduction:

The Training programs of FIDIC in different areas, Provide essential contractual know-how for working on future international projects.

The different forms of FIDIC Conditions of Contract are recommended by the European Commission throughout Central and Eastern Europe for the one billion Euro per annum Transport and Environmental Works Programme, and are increasingly being adopted by IFI's and private clients worldwide.

This practical seminars, provided by professional engineers and certified trainers with extensive international experience, explains and illustrates the use of the FIDIC Conditions of Contract for Construction (the "Construction Contract") and the FIDIC Conditions of Contract for Plant and Design-Build (the "Plant and Design-Build Contract"), fidic conditions of contract for design, build and operate projects as well as other modules.

The courses are designed to help the participants have confidence in working with these documents whether representing Employers, Consultants or Contractors.

## Who should attend?

The certified training programs provide the necessary knowledge for professionals from Government Ministries and Agencies, Private Sector Employers, Consulting Engineers, Contractors, Quantity Surveyors, Architects, Legal Advisers and all involved with the next generation of International Projects. It is particularly important to those involved in preparing or managing infrastructure projects, as all works contracts use the FIDIC Conditions of Contract.

Ensure your staff is prepared for working with these important documents, which will become the international contractual language of the 21st Century.
