FIDIC Professional Services Agreements

Understanding how agreements between clients and consultants should be set up (FIDIC Contracts Manual Module 0).

Practical Use of FIDIC Contracts

Providing essential contractual know-how for working on today's international projects (FIDIC Contracts Manual Module 1).

Management of Claims and Dispute Resolution

Ensuring that staff using FIDIC contracts can manage claims and disputes (FIDIC Contracts Manual Module 2).

Dispute Adjudication Boards

Ensuring that professionals understand fully the 21st century's answer to arbitration (FIDIC Contracts Manual Module 3).

Management and Administration of FIDIC Contracts

Ensuring that project staff can manage and administer all aspects of a FIDIC contract (FIDIC Contracts Manual Module 4)

Trainers

The course tutors are provided by specialist international training suppliers that are accredited by FIDIC.

Course Materials

Participants will be provided the following materials, in English:

- FIDIC Client/Consultant Model Services Agreement and related agreements and/or FIDIC Construction, Design-Build and EPC/Turnkey Contract /s (depending on the Module)
- Guides to the relevant agreements and contracts
- Course overheads
- Work exercises, case studies and mock DABs

Who Should Attend

The courses provide the necessary knowledge for professionals from ministries and agencies, private sector employers, consultants and consulting engineers, contractors, quantity surveyors, architects, legal advisers and all involved with the implementation and management of services agreements and works contracts. They are particularly important for those involved in preparing or managing infrastructure projects financed under funds provided by development agencies and the European Union cohesion and structural funds.

Organization

FIDIC-Libya Contracts Intensive Training Courses are organised by **TTC**, Tripoli, Libya.

Course Venue

The FIDIC Contracts Intensive Training Courses held in Tripoli take place in a centrally located, five-star hotel that has extensive, high-quality accommodation and facilities.

FIDIC® Contracts Intensive Training Courses

FIDIC Contracts Intensive Training Courses take participants over a period of two and one-half days in an organised and structured way through the contents of one of the modules of the FIDIC Contracts Training Manual. Participation is limited to some 35 with one, and sometimes two, trainers providing detailed explanation, courses notes and cases studies and leading in-depth discussions, almost at an individual level.

FIDIC Contracts Intensive Training Courses are provided by consulting engineers and other construction professionals with extensive international experience. They aim to explain and illustrate the use and management of all aspects of the FIDIC® Client/Consultant Model Services Agreement and related agreements, the FIDIC® Conditions of Contract for Construction and the FIDIC® Conditions of Contract for Plant and Design-Build.

FIDIC Contracts Intensive Training Courses help participants have confidence in working with FIDIC documents, whether representing employers, consultants or contractors. The FIDIC® Short Form of Contract and the FIDIC® Conditions of Contract for EPC/Turnkey Contracts are also covered.

FIDIC® Services Agreements and Works Contracts

FIDIC professional services agreements and conditions of contract are being increasingly used by the international construction industry throughout the world. In Europe, they are used by the European Commission for many projects throughout central and eastern Europe. The Multilateral Development Banks (MDB), including the World Bank, the Interamerican Development Bank, the Asian Development Bank and the African Development, have adopted the FIDIC® MDB Harmonized Edition of the Conditions of Contract for Construction.
